

KREOS 8000 MOTORHOMES

STANDARD KREOS MOTORHOMES 8000 DATA

Standard chassis (Kreos 8002 / Kreos 8009 e 8012)		Iveco 50C Iveco 70C
Engine displacement (Kreos 8002 / Kreos 8009 e 8012)	cc	2.289 / 2.998
Maximum power(Kreos 8002 / Kreos 8009 e 8012)	kW (hp)	115 (156) / 132 (180)
Towable mass ^(H)	kg	3.500
Fresh water tank capacity (antifreeze) ^(K)	l	210
Waste water recovery tank capacity (heated and anti-freeze) with external vent	l	70 + 70
Water heating system	kW	6

Model shown: Kreos 8012

EQUIPMENT

CHASSIS

- Iveco Daily 70 C 18 mechanics, AdBlue, Euro VI, 180 HP (Kreos 8002: Iveco Daily 50 C 16, AdBlue, Euro VI, 160 HP)
- Rear-wheel drive, twin wheels
- ESP, ABS, EBD, ASR, Hill Holder
- Cruise control
- Self-levelling rear pneumatic suspension, original Iveco part (not on Kreos 8012: mechanical suspensions, Iveco original part)
- 8 + 1 automatic transmission Hi-Matic (not on Kreos 8002)
- Electric hand brake
- Leather steering wheel with integrated radio controls. Height and depth adjustment for Kreos 8009 and 8012
- Alloy wheels
- Automatic cab climate control (Kreos 8002: manual cab climate control)
- 90 l diesel tank
- Electric windows in cab
- Descending rearview mirrors with integrated DAB radio antenna, double wide-angle lens, heated and with individual electrical adjustment
- DAB radio, bluetooth, USB, steering wheel controls, GPS Iveco original part (not on Kreos 8002) (a), sound activators
- High-performance Xenon front lights, dynamic direction indicators and LED daytime running lights, headlight levelers
- Carpeted cab
- Cab interior lining according to nautical model, dashboard with faux leather inserts with stitching
- Swivel cabin seats with armrests, integrated seat belts, height adjustment, backrest and liners coordinated with living
- Driver and passenger sun blind with automatic return ^(b)

DESIGN & BODYWORK

- Polyurethane wall and roof framework, high insulation in extruded polystyrene foam (XPS), roof lined in hail protection fibreglass, aluminium external walls, anti-yellowing

- Double floor with total fibreglass covering and insulation dedicated to each element, heated and illuminated cavity with external and internal access to the floor
- Driver's cab fully thermally and acoustically insulated from the engine compartment and heating even above the dashboard
- Fibreglass monobloc front panel with large engine hood, aluminium car grille
- Double car door in driver's cab complete with double glazing, safety lock, open position locking system, clearance and courtesy lights, each equipped with electric step with automatic extraction/reentry (8009 and 8012)
- Automotive LED rear lights
- High quality frame windows with silver polyurethane frame, flat window pane, blind and mosquito net
- Premium living space door (XL for Kreos 8009 and 8012) with two-point remote control, window, blind, storage compartment and sliding mosquito net
- External LED light
- Electric step for living area that can also be closed from the dashboard with warning light/acoustic indication on the dashboard
- Coated aluminium car side skirts including maxi hatches dedicated to external access to the double floor and gas stop pistons
- Central cab and living space door locking
- Garage with 350 kg payload capacity, lowered, heated and insulated loading surface with two large
- Easy Lock hatches and locks, insulated subfloor and floor
- ABS lined washable, drain drain for water, 12V, 230V sockets and TV, double Led lighting, coat hanger rod with sliding rings, fixing bars with repositionable rings
- Garage door open warning light on dashboard

KITCHEN & BATHROOM

- Large 160 l trivalent refrigerator with automatic energy source selection (AES), High Performance Cooler system
- Gas oven
- Large kitchen with scratch and fingerprint resistant Corian top, integrated double sink and dish rack, large worktop, sink cover that can be used as an additional shelf and lighting
- Ideal ventilation thanks to the roof-light, extractor hood and opening window
- 3-burner stove
- Large storage spaces with drawers and pull-out baskets complete with assisted retraction
- Bathroom door to be opened at 180° and also to be used as a separation in the centre of the vehicle
- Toilet with wooden furniture, mirrored wall cabinets, window and roof-light
- Large sized bathroom sink in nautical style porcelain material with soft-touch effect
- Additional sliding curtain to conceal the toilette area (with bathroom door open)
- XL-shower with internal white/blue LED lighting, towel rod, two removable shelves for clothes, double drain plug, wooden footboard and household type smoky door with chrome profiles
- Additional removable clothes rail in shower (Kreos 8012)
- Toilet with swivel cup and removable cassette 18 litres (frost-resistant)
- Housing for second toilet cassette
- Set-up for external electric toilet ventilator

SYSTEMS

- Performance-optimised convector heating, Laika exclusive, with radiant elements positioned in all areas of the vehicle to guarantee maximum comfort in all conditions with certification obtained in chamber tests
- Device permitting remote control of the heater via smartphone
- Programmable heating activation
- Rear area heating regulation system

EQUIPMENT

(Kreos 8009)

- Heat exchanger when driving
- State-of-the-art electronic control panel with colour touch screen
- High-tech lighting system, 100% LED, largely dimmable, with activation/deactivation of the lights from various points
- Completely frost-proof water system
- Pressurised water pump with expansion vessel, high quality single lever metal faucets
- External shower (hot/cold water) in the garage"
- Waste water tank electric drain valve
- Easy and clean access to the fresh water tank starting from the garage
- Two USB outlets in the rear bedroom, two USB outlets on the drop-down bed and one USB outlet in the living area
- Gas system with anti-crash sensor and automatic cylinder exchanger
- Automatic 20 A battery charger
- "Laika Welcome Home System": with the remote control on the key, allows you to activate the external light, an internal light and bring the step out

INTERIOR & COMFORT

- Multi-level indirect lighting in lounge, kitchen and bedroom to create pleasant atmospheres
- Dimmable lighting system and, on Kreos 8009 and 8012, with the possibility of independent regulation of the lighting colour temperature (warm light - cold light) by remote control
- Wardrobes with integrated lighting, to be switched on independently
- Ceiling insulated/covered with fine Laika-Iso-Deluxe material
- Floor on a single level, without steps, from the driving cab up to the rear bedroom
- Furniture design Noce Italiano
- Firenze upholstery, with stain-resistant treatment
- Large wall units with exclusive, high quality mechanical components and indirect interior lighting
- Mother-of-pearl methacrylate kitchen

- and lounge wall units, with iridescent, "Bianco Carrara" effect and soft closing
- Living room with upholstery and home comforts, adjustable headrests, cushions with removable lining, and indirect lighting
- Ergonomic table with moving table top and easy handling
- Two maxi panoramic roof-lights 95x65 cm in living room and back bedroom
- TV rack compartment in living room, with retractable and rollaway 32" TV (TV opt)
- Heated double flooring that acts as an insulating chamber
- Blinds with inner tube for maximum insulation
- Large drop-down bed, separated from the windscreen and equipped with support points for maximum stability, slatted frame, roof-light, storage shelf, dedicated heating, reading lights, perimeter tent, wooden service ladder
- Lighting with multi-way control: night lights can also be controlled from the sleeping areas
- Underneath drop-down bed padded with 8 lights, including dual-colour, with independent switches
- Night-time courtesy white lights under rear bed (Kreos 8012)
- Entrance with integrated step, complete with doormat, lighting, courtesy handle and two comfortable shoe compartments
- Rear beds with high-comfort spring system (Kreos 8012: wooden staves and spring system)
- Electrically height adjustable rear centre bed (Kreos 8002 and 8012)
- Ultra thick back "Wellness" anti-bacterial, anti-mite, breathable mattresses with machine washable stretch lining with silver ions
- Adjustable reading lights on all beds
- Fabric and eco-leather removable folding wardrobe (Kreos 8012)

STANDARD SETTINGS FOR:

- Living space speakers
- Tow hitch
- Internal wall unit-roof-power supply wiring passage
- Rear parking sensors
- Additional clean water tank with level reading
- Reversing camera
- Roof-light with electric ventilator
- Lounge area TV (hidden TV)
- Rear room TV

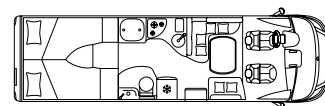

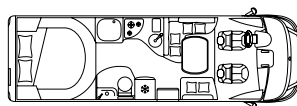

(a) = The GPS function must be activated through an Iveco app. The maps will be displayed through Bluetooth on the personal mobile phone or tablet.

(b) = Sunshades cannot be installed with optional vertical sliding blind.

(c) = With the optional "Grand Chef" kitchen with built-in oven, the standard oven above the fridge is replaced by a compartment with wooden door. Otherwise this compartment can be used for the optional microwave oven.

INFORMATION

Technical data sheets notes

- (A) Possible only with increased total weight.
- (B) If accessories are installed, the number of the type-approved seats may change.
- (C) With chassis Fiat 43 (only with wheelbase 3,450, 3,800 and 4,035 mm) and chassis 160 or 180 HP, the maximum possible mass is 4,400 kg.
- (D) On Heavy chassis or with 16" tyres, the total height increases by 5 cm.
- (E) Accessories mounted on the roof, for example satellite aerial, solar panel, etc., modify the height of the vehicle.
- (F) Accessories installed reduce the indicated payload.
- (G) With the optional installation of the left hatch, the window on the low bunk bed is removed.
- (H) By mounting the tow hitch the weight in running order changes, so it is possible that the type-approved seats may change.
- (I) The towable mass and the maximum total weight must not exceed 6,000 kg.
- (J) The mass in running order includes: 75 kg driver, 90% fuel tank, 100% fresh water tank of the capacity suitable for running and 100% gas cylinder.
- (K) Before starting to drive, check that the level of the fresh water tank does not exceed 20 l.
- (L) With foldaway bed over living area, the 50x70 cm roof-light will be replaced with a 40x40 cm roof-light.

Accessories notes

- (1) In case this accessory is installed, the standard cab sun visors will have to be removed, as they are technically incompatible.
- (3) Allows to turn on / off the heating system via Bluetooth or GSM (SIM). The dedicated SIM is not provided by Laika.
- (4) With the "Grand Chef" kitchen, the standard gas oven above the fridge will no longer be available.
- (5) With the drop-down bed over the living room, the roof-light 70x50 cm is replaced by the roof-light 40x40 cm.
- (6) In case this accessory is installed, the headrests in the living room must be replaced with differently shaped headrests and having height adjustment in one position only.
- (7) In case this accessory is installed, the bathroom door will open at 90° instead at 180°.
- (8) Blind not available for Kosmo 209.

Accessories notes

! Installing accessories reduces the load capacity

If accessories are installed, it is mandatory to follow the instructions and recommendations indicated by the manufacturer of the accessory installed.

Technical information

- 1) The weights of the vehicles in running order (reg. EU 1230/2012) include: 75 kg driver, 90% of fuel tank capacity, gas cylinder capacity, capacity of tank for fresh water considered suitable for running.
- 2) Anything not included in the standard vehicle version (whether referring to mechanics or to the living space) can cause an increase in weight in running order with a resulting reduction of the useful load. This reduction may result in the need to reduce the number of approved seats, if the total weight of Accessories and options exceeds the value of the residual useful load. It is therefore advisable to consult the weights of individual options and Accessories listed in the price list before installing any Accessories. Please remember that the law does not permit exceeding the technically permissible maximum mass value. It is therefore advisable not to exceed the Technically Permissible Maximum Mass and that sufficient useful load remains for passengers and luggage. In the event of installation of a bike rack or of declassing of the Heavy chassis, the approved seating number may vary. In this case, always check with the dealer regarding any changes to approved seats.
- 3) The calculation of useful load is given by the difference between the Technically Permissible Maximum Mass at full load and the Mass in Running Order. This figure includes 75 kg for each passenger (not including the driver), and the minimum useful load (given by the formula 10 kg for each metre of length of the vehicle plus 10 kg for each passenger, usable by the crew for luggage and equipment), which will be separated to obtain the residual useful load. The residual useful load can be used for the installation of Accessories and for loading more luggage.
- 4) In order to maintain optimal setup of the vehicle in running and stationary conditions, it is advisable to distribute the payload in a uniform manner over the surface of the vehicle.
- 5) The technical specifications indicated on this sheet regarding the measurements and weights of the vehicles as well as their supplied equipment and appearance correspond to the current knowledge at the time of printing (August 2020). The technical specifications can, however, vary, with a tolerance of +/- 5%.
- 6) The data regarding towable mass are a valid indication for upward slopes with a maximum incline of 12%.
- 7) Laika reserves the right to make changes to equipment or im-

provements to products. Before making your purchase official, we recommend that you inquire with your preferred Laika dealer for the latest update regarding standard provided equipment and to verify whether any changes have been made with respect to the specifications contained in this sheet.

- 8) Parts in contact with one another may display different shades of colour due to differences amongst the materials used.
- 9) The overall vehicle height is increased in case of installation of Accessories on the roof, such as – for example - satellite antennas and solar panels. With 16" tyres on Fiat Ducato, the overall height of the vehicle increases by approximately 5 cm.
- 10) The number of approved seats can vary depending on the regulations of the individual states regarding road travel.
- 11) Installed, transformed, or added Accessories that have not been approved by Laika can compromise or reduce safety margins and cause damage, even if there is notification proving the possibility of installation of an accessory.
- 12) Please note that, in case of installation of an accessory - especially in the back area, like for example of bike racks, tow hitch, and so on - you must always be sure you observe the maximum load permitted on the axle.
- 13) Any changes made after production can reduce vehicle safety margins.
- 14) Please make sure, referring to the weights of individual Accessories listed in the price list or asking your authorised Laika dealer, that the overall permitted mass is not exceeded and that sufficient useful load remains for passengers and luggage.

General information

Laika Caravans S.p.A. reserves the right, at any time and with no notice, to improve and change the specifications of the cell and frames, furniture and interior design characteristics and the equipment of the vehicles presented in this catalogue. In spite of our careful control, this catalogue may contain misprints. Some of the vehicles shown in the pictures of this catalogue are prototypes not yet serially manufactured at the printing date of this catalogue (August 2020). Some of the vehicles shown in the pictures have Accessories not included in the standard equipment, which therefore can be supplied only at an extra price. The pictures may even show pieces of furniture (e.g. plates, glasses) and other objects, such as TV sets or motorbikes, that are not included in the standard equipment of the vehicles and not marketed by Laika. This catalogue contains the standard equipment and specification characteristics supplied at the print date. The data in the technical data sheets refer to the European type approval, which is valid in all EU Countries. Some data might differ in non-EU Countries due to different applicable regulations. In this case, we recommend contacting the nearest Laika dealer for information concerning local registration laws and the related type-approval data. Your dealer will inform you about any change made to the products after

printing the catalogues. All the Options are available at an extra price. For any particular or special use the Customer should inform the dealer before signing the purchase contract. If accessories are installed, it is mandatory to follow the instructions and recommendations indicated by the manufacturer of the accessory installed.

Price Note

The prices shown in this price list are recommended prices expressed in Euro, ex-works, quoted without VAT and without local taxes. This price list supersedes any previous versions.
